

Reception Homework

Week Beginning Monday 16th November 2020

Literacy

In Literacy we have learnt many of the letter sounds. Please look around your house and see how many items you can find that start with the sounds we have learnt. Remember we say the sound not the name: mmmm not Em and pppp not Pee. If you would like to show your parents the rhymes we have learnt, log onto You Tube; letters and sounds rhymes. Can you write any words using the sounds? We have learnt to write; pip, pop, dot, mat, map, dad, got. Use your Fred Fingers to write them down. Don't forget to keep reading our red words. I, **no, go, to, do, the** and our green words; an, at, as, it, is, if, in, on, dad, has, his, put, big.

These are the sounds we know; m, a, s, d, t, l, n, p, o, c, k, ck, g

Understanding our World.

We are continuing to look at how we celebrate. In school this week we have decorated 'pumpkin' biscuits. Could you draw a picture of your favourite festival that could be a design for the top of a biscuit? If you are lucky someone might help you create it. What colours will you choose? Why will you choose them?

Number

We are now extending our counting and matching skills to writing the number to value the amount. Ask an adult to draw some quantities in your book, these can be in a line, and then have a go at counting them after you have counted can you see if you can write the digit next to the quantity. To make this game even more fun ask your parents to draw two different quantities. Can you tell them which has more and which has fewer?

= 4

= 5

We have **more** leaves than tractors. We have **fewer** tractors than leaves.

Have fun. Please send in your photographs of your finished homework or anything else you have been doing. We love to see how you are telling your parents all about what you are learning at school.
