

Maths Homework

Week Beginning:

05.10.2020

Year Six

Topic – World War 2

Mr Chikandwa's Group

www.mathletics.com/

The work assigned to you is based on long division and then checking your division using inverse. Should you find any part of the work difficult to understand, please feel free to ask for help.

Mr Kinson's Group

www.mathletics.com/

This week we have been learning how to multiply and divide numbers by 10, 100 and 1000. On the website above, I have set you some questions using these skills. Remember, you can always watch the videos which explain how to complete the questions if you are unsure.

Mrs Clover's Group

We've been learning to complete short division. We're also using our knowledge of the 3 times table.

Have a go at these calculations:

$$45 \div 3 =$$

$$63 \div 3 =$$

$$75 \div 3 =$$

$$52 \div 3 =$$

$$86 \div 3 =$$

$$94 \div 3 =$$

Multiplication / Division Facts:

Practise the times table you are currently learning (don't forget the related division facts!). Remember, ten minutes practise each day is much more useful than one hour, once a week. You can practise online using: <https://ttrockstars.com/>

Please complete your work in the homework book provided but do not return this to school, instead send photos to your class email address. We will send a Marvellous Me Badge when you have shared your completed homework.

You can use the following class email addresses to send photos of completed work 6C@marshill.bham.sch.uk or 6KC@marshill.bham.sch.uk.

You can also upload to our school twitter page @marsh_hill

If you need any support, please email your class email address and a reply will be sent to you within 5 days.

We look forward to seeing this week's work!

Mr Chikandwa, Mrs Clover and Mr Kinson
