

Maths Homework

Week Beginning:

12.10.2020

Year Six

Topic – World War 2

Mr Chikandwa's Group

www.mathletics.com/

The work assigned to you is based on long division, factors and multiples.

Should you find any part of the work difficult to understand, please feel free to ask for help.

Mr Kinson's Group

www.mathletics.com/

This week we have been learning how to divide using the short method (sometimes called bus stop method). On the website above, I have set you some questions using this method. Remember, you can always watch the videos which explain how to complete the questions if you are unsure.

Mrs Clover's Group

What can you remember about negative numbers?

Draw a number line that starts at -10 and finishes at 10.

Use it to complete these questions:

$$4 - 6 =$$

$$3 - 7 =$$

$$8 - 10 =$$

$$3 - 8 =$$

$$-2 + 5 =$$

$$-5 + 7 =$$

Create your own examples if you wish.

Multiplication / Division Facts:

Practise the times table you are currently learning (don't forget the related division facts!). Remember, ten minutes practise each day is much more useful than one hour, once a week. You can practise online using: <https://trockstars.com/>

Please complete your work in the homework book provided but do not return this to school, instead send photos to your class email address. We will send a Marvellous Me Badge when you have shared your completed homework.

You can use the following class email addresses to send photos of completed work 6C@marshill.bham.sch.uk or 6KC@marshill.bham.sch.uk.

You can also upload to our school twitter page @marsh_hill

If you need any support, please email your class email address and a reply will be sent to you within 5 days.

We look forward to seeing this week's work!

Mr Chikandwa, Mrs Clover and Mr Kinson
