

## Outcome of 2019 Parent Questionnaire

The results of the questionnaire are displayed below. We were thrilled that 100% of parents surveyed strongly agreed/agreed that their child is happy, feels safe, makes good progress, is taught well and enjoys taking part in special days, events and extra curricular activities. The majority of parents stated that the main reason why they send their child to Marsh Hill was because of the proximity to their home and through recommendation. When we asked what parents liked about Marsh Hill the overwhelming majority said that this was because of the good teaching and / or their child was happy. Finally we asked how we can improve Marsh Hill. The responses ranged from a reduction in homework, to better communication.

Well done to Matthew's mum whose name was drawn to receive the gift vouchers,
